
idm-broker Documentation

Release 0.1

Alexander Dutton <alexander.dutton@it.ox.ac.uk>

Nov 16, 2017

Contents

1	Reference	3
1.1	<code>idm_broker.apps</code> (notifications for model changes)	3
1.2	<code>idm_broker.consumer</code> (consuming tasks into celery tasks)	3
2	Indices and tables	5
	Python Module Index	7

Contents:

1.1 `idm_broker.apps` (notifications for model changes)

```
class idm_broker.apps.IDMBrokerConfig (*args, **kwargs)

    name = 'idm_broker'

    ready ()

    register_notification (*, serializer: rest_framework.serializers.BaseSerializer, exchange,
                           model=None, renderer: rest_framework.renderers.BaseRenderer =
                           <class 'rest_framework.renderers.JSONRenderer'>)

    register_notifications (registrations)

    register_related_notification (model, accessor)
```

1.2 `idm_broker.consumer` (consuming tasks into celery tasks)

```
class idm_broker.consumer.BrokerTaskConsumer
    A kombu kombu.mixins.ConsumerMixin that consumes from queues declared in settings.IDM_BROKER['CONSUMERS'], and dispatches each message received to one or more configured celery tasks.

    classmethod get_callback (task_name)

    get_consumers (Consumer, channel)

    on_consume_ready (connection, channel, consumers, **kwargs)

    ready = None

    run (_tokens=1, **kwargs)
```

CHAPTER 2

Indices and tables

- `genindex`
- `modindex`
- `search`

i

`idm_broker.apps`, 3

`idm_broker.consumer`, 3

B

BrokerTaskConsumer (class in `idm_broker.consumer`), 3

G

`get_callback()` (`idm_broker.consumer.BrokerTaskConsumer`
class method), 3

`get_consumers()` (`idm_broker.consumer.BrokerTaskConsumer`
method), 3

I

`idm_broker.apps` (module), 3

`idm_broker.consumer` (module), 3

IDMBrokerConfig (class in `idm_broker.apps`), 3

N

`name` (`idm_broker.apps.IDMBrokerConfig` attribute), 3

O

`on_consume_ready()` (`idm_broker.consumer.BrokerTaskConsumer`
method), 3

R

`ready` (`idm_broker.consumer.BrokerTaskConsumer` at-
tribute), 3

`ready()` (`idm_broker.apps.IDMBrokerConfig` method), 3

`register_notification()` (`idm_broker.apps.IDMBrokerConfig`
method), 3

`register_notifications()` (`idm_broker.apps.IDMBrokerConfig`
method), 3

`register_related_notification()`
(`idm_broker.apps.IDMBrokerConfig` method),
3

`run()` (`idm_broker.consumer.BrokerTaskConsumer`
method), 3
